

How we can help you improve your referral and funding decisions

Our evidence-led, efficient, robust and consistent Individual Funding Request service

- Provides the expertise and processes you need to make effective decisions and deliver a fast, efficient service for patients
- Offers consistency across different CCG areas, with flexibility to accommodate any local variation in policies and pathways
- Delivers economies of scale alongside specific knowledge and resources that support unique policies and circumstances of each CCG
- Supports transparent and robust decision-making
- Ensures decisions are equitable, timely and compliant with policy
- Clinically led and underpinned by the latest bespoke-built technology
- Our in-house developed case management system, IndEx™, enables clinicians to track applications in real-time and manage their patient's journey. Robust audit trail mitigates risk of potential legal challenges and demonstrates compliance with governance arrangements
- Options for provision of Policy development

Already providing this service to 18 CCGs from 3 regional hubs

Reports received are informative and helpful, presented in a format that is easy to read and clear and the quality of triage due to the knowledge base of the team is exceptional.

Michelle Creed
Chief Nurse, NHS Halton CCG
