

# How we can help care homes and care providers optimise the use of medicines

## Our clinical services supporting medicines optimisation

As your NHS partner, we can support you in developing your medicines optimisation processes to improve patient safety and avoid wastage.

- Medicines management system reviews including storage and reducing waste
- Policy and protocol reviews
- Structured medication reviews and supporting care planning
- Innovation / service development
- Organisational support with medicines governance
- Training and education
- Bespoke support
- Support for Care Quality Commission inspections
- Facilitating multi-disciplinary team (MDT) working
- Networking with community services, acute trusts and mental health services

**We work with you to understand your challenges and respond to specific requests. Along with our established offers of support, we have a track record of delivering bespoke solutions.**

**Dudley CCG has benefitted from the additional resource of a MOCH (medicines optimisation in care homes) pharmacist and a pharmacy technician for two years. They have fitted seamlessly into an existing team undertaking medication reviews and providing medicines management support in our care homes.**

**Rachel Thornton**  
Dudley CCG

**We commissioned MLCSU to perform an assessment of governance in relation to medicines across our charity. It was great to work with people with such knowledge and expertise. The work was conducted efficiently and feedback from staff at our hospices and neurological care centres was positive.**

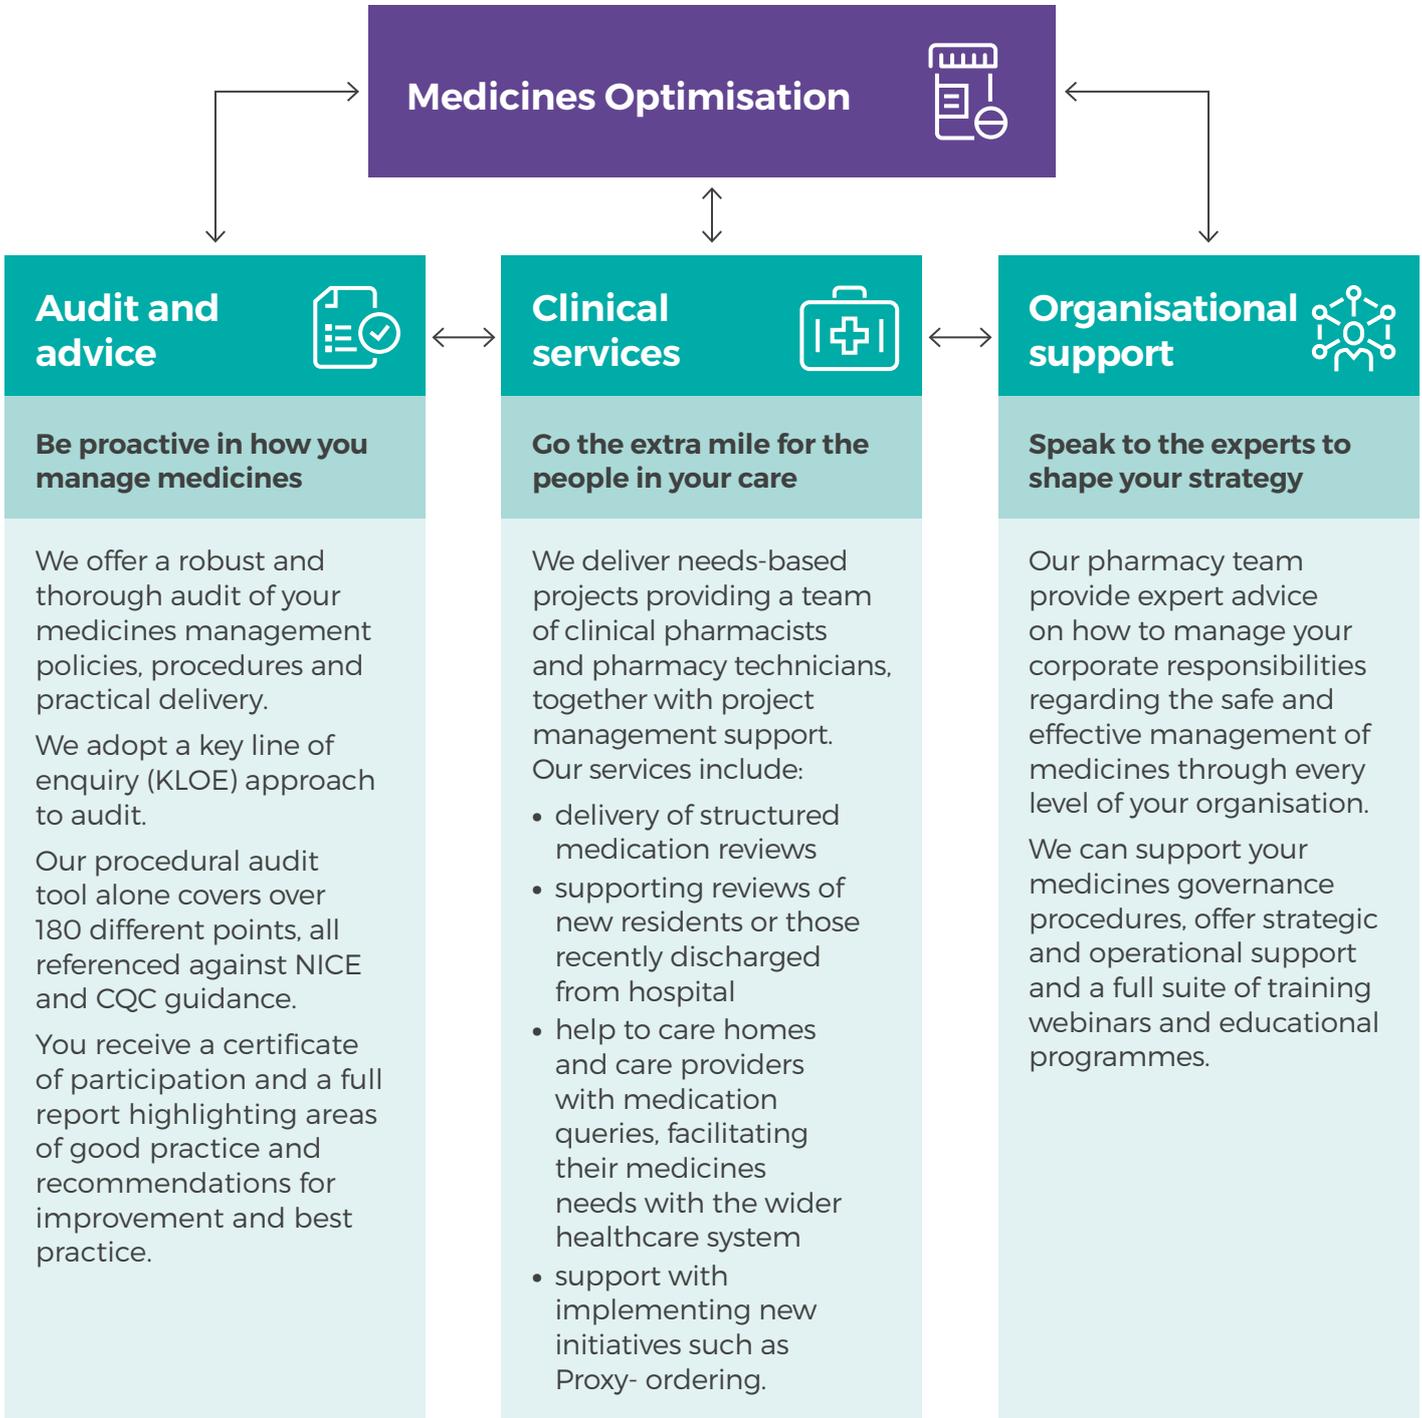

**Dr Paul Perkins**  
Sue Ryder Foundation
