

UJob – the easy-to-deploy system for NHS organisations to manage your staff flu jab programme

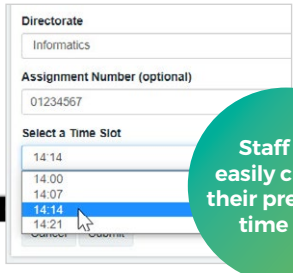

Key points:

- ✓ You publish your job appointments on the system
- ✓ Staff book appointments on a smartphone, laptop or desktop
- ✓ The clinic nurse receives a pre-filled list of session attendees
- ✓ And you gain a quality-controlled list of which staff members have and have not been inoculated
- ✓ It's quick, simple, low cost and works anywhere.

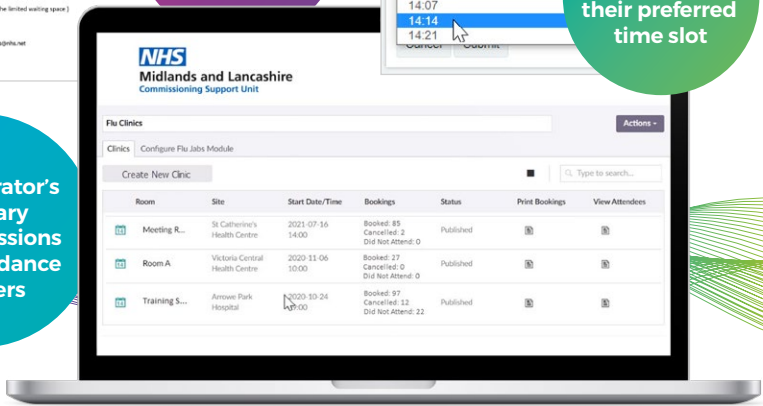

Staff receive a confirmation e-mail for their booking

Staff can easily choose their preferred time slot

Administrator's summary view of sessions and attendance numbers

Features

- ✓ Set and change the appointment duration
- ✓ Release all dates onto the system, or just a few at a time, to avoid no-shows at distant appointments
- ✓ Your member of staff gets an email confirming their booking
- ✓ View or print a list of all session appointments with name, department and contact details
- ✓ Live management report lists jab take-up and attendance to target staff follow-ups
- ✓ Report provides up-to-date totals, listed by directorate, department or all
- ✓ Branded with your identity and any campaign material
- ✓ Works perfectly on smartphone, tablet, laptop and desktop.

Save money

Replace resource-intensive administrative processes with a modern online platform for in-house inoculation programmes with minimal staff overhead. UJab provides simple, effective control to a central point rather than several different members of staff and provides your employees with a seamless process that only takes seconds.

Success with UJob

In autumn 2020, MLCSU was commissioned to rapidly develop a tailored booking solution to organise Wirral University Teaching Hospital (WUTH) NHS Foundation Trust's staff flu jab programme.

COVID-19 had made it unsafe to run the usual drop-in sessions with people waiting in a queue, and a solution was urgently needed to manage the annual inoculation process before winter arrived.

In a record time of just three weeks, we developed and launched UJob. Our online system successfully managed the flu jab process via a user-friendly app - saving time and effort for both the Trust's inoculation team and its 5,000 busy staff.

Service

- ✓ All information governance processes are covered: Data Protection Impact Assessment (DPIA), Data Processor Agreement (DPA), Business Continuity
- ✓ Full Service Level Agreement specific to UJob: guaranteed uptime, response targets, service management
- ✓ Direct access to the UJob Development Team
- ✓ For the NHS, by the NHS - we share your values
- ✓ **Available now.**

Easy clinic setup, with easy to set appointment duration

The screenshot shows a web form titled "21st July Flu Clinic - All Staff". It has tabs for "Flu Jab Clinic Details", "Times", and "Info". The form fields are as follows:

- Start Date ***: 2021-07-21 15:00. Below the input is the text "Enter the start date and time for this clinic." and a "Clear Date" button.
- End Date ***: 2021-07-21 16:30. Below the input is the text "Enter the date and time when this clinic finishes." and a "Clear Date" button.
- Room ***: Room One. Below the input is the text "Enter the room where the clinic will take place."
- Site**: St Catherine's Health Centre. Below the input is the text "Choose a site where the clinic will take place."
- Slot Duration ***: 8. Below the input is the text "Please enter the number of minutes per slot. 7 mins is the initial guidance due to PPE".

You may only use UJob for a few months of the year, but it will make a huge difference to the efficiency of your staff vaccination programme.

Support

- ✓ Full technical support included
- ✓ Our own UK-located Service Desks
- ✓ All calls ticketed and trackable
- ✓ Response times governed by our Service Level Agreement

Technology

- ✓ Hosted in state-of-the-art Microsoft Azure Cloud data centres
- ✓ SLA-backed 99.5% uptime
- ✓ 24/7 availability
- ✓ Your bookings backed up nightly
- ✓ Advanced anti-malware
- ✓ 256-bit SSL/TLS encrypted.

Pricing

UJab costs £4,750 in year one (includes one-time setup costs) and £2,750 per year thereafter. This includes hosting and helpdesk support. We gladly accept NHS Purchase Orders.

Rich data

See a live and authoritative list of who has and has not been vaccinated, split by directorate and/or department.
