In partnership with

Workplace wellbeing in the NHS

7 October, Online

Years 2020 – 21 have been enormously challenging for the entire NHS workforce, both physically and mentally. This forum will be far reaching across all the HFMA Hub networks with a unifying theme of improving workplace wellbeing for all. We're really pleased to announce that we will be working in collaboration with NHS Future Focused Finance on this joint event, to coincide with the launch of their wellbeing champions programme this Autumn.

This event will bring together leaders in workforce policy as well as a selection of NHS case studies identifying areas of good practice in areas such as health & fitness, diversity & inclusion as well as mindfulness and building resilience.

Delegates will be encouraged to interact with each other through Q&A and discussions and will be given the opportunity to network with their colleagues and peers. This event is aimed at all finance staff with an interest in workplace wellbeing.
