

How we can help you with NHS business cases

Better Business Cases™ and Bite Size training, advice and support

The NHS England Business Case team, part of NHS Midlands and Lancashire, provides training, advice and consultancy aligned to the Five Case Model, HM Treasury's Green Book, and Better Business Cases guidance. With over 25 years of experience in NHS business cases for each of our team members, working with a wide range of organisations including the Department of Health and Social Care (DHSC), strategic health authorities, NHS trusts and NHS England Project Appraisal Unit, we can help you with a wide variety of business cases.

APMG-accredited Better Business Cases™ training

Our Better Business Cases training and Q&A is delivered with an NHS context, signposting to NHS England and DHSC cash and capital. Prices are per delegate and include the APMG examination and invigilation.

Foundation Masterclass: three-day course - £450 (+ VAT where applicable)

Practitioner Masterclass: 3.5-day course - £525 (+ VAT where applicable)

Better Business Cases™ training is applicable to:

senior executives responsible for delivering value for money from capital investments which achieve their strategic objectives

project managers and team members developing business cases

those involved in the scrutiny and review of investment proposals.

Our full training prospectus is available on [our website](#).

Bite Size courses include the following:

- Benefits Management and Realisation Training (one or two days)
- Comprehensive Investment Appraisal (CIA) Training (one or two days) including Q&A with DHSC economists on two-day course
- Financial Appraisal Training (three hours)
- Business Case Assurance Training (two days)
- Business Case Writing Skills for Small Value Schemes (one day)
- Post Project Evaluation (one day).

Business case advice and consultancy

Advice and support - Our team can offer you practical advice and guidance via our business cases support service.

Consultancy - Our business case team work closely with colleagues in our Health Economics Unit, Transformation Unit (service redesign), Digital Transformation (strategies, green plans, net zero, and sustainability) and Improvement Unit (quality improvement projects). Together we provide you with a comprehensive consultancy service on all business case aspects including project management. We are flexible, and our services can be provided as a tailored mix of appropriate skills and expertise to meet your business case needs.
